I haven't read the entire book. Please verify that you are not a robot.  
This book is based on the Analytic Network Process and lays  
out a new approach for making decisions in light of their  
benefits, opportunities, costs and risks BOCR shows how to  
include the strategic criteria of the decision-maker that must  
be satisfied regardless of the particular decision being  
undertaken. Discrete judgments: how we develop them -- Part  
II. I could not dare to read it since the title was  
"Mathematical Principles of Decision Making."
