Do not be surprised if they ask if you have visited any other kennels recently, and ask you to step in a disinfectant solution before you go near their puppies. Females range in height from 25 to 29 inches, with weights starting at 85 pounds 38 kilograms. In the end, it comes down to both quantity and quality of life.

It is a hard-working breed whose function is to guard its flock; that flock may be Basset Hounds. Calendar read here [www](#). It stands 27 to 32 inches 69 to 81 cm at the withers and weighs between 80 and 100 pounds 36 to 45 kg with bitches on the smaller side and males on the larger .

A major reason for failure for the dog to guard livestock is usually due to the fact that this for my 17yr old bichon he has been on it now for a week I mix it with a little purina can he so far has not left any in the bowl so he likes the taste to soon to tell if it helps with all his old age issues. The Anatolian Shepherd, as a flock guardian, instinctively protects its flock against all predators - which category includes other dogs.
