Motoko Arai. Akio Hamano. Given that I rarely go for hard sci-fi, this book seemed the "hardest of hard" to me - futuristic ideas piling on futuristic ideas, crossing the boundaries between the fields.

We excluded accessions from our analysis if both parental lines were in the collection.

In conclusion, our study revealed the genetic structure of the NARO rapeseed collection and genetic relationships among accessions on the basis of single-locus SSR markers. Refresh and try. I found the Japanese It was very interesting but never got bogged down in the technical stuff.
